SPECIAL NOTE:

- * Height from TOP of the veil to ankles of Suit.
- * Chest is measured in circumference underarm.
- * Arm is measured from should to wrist.

Choosing the Correct Size:

SUITS AND JACKETS. The measurements in the Tables should be used as guide to selecting the correct size of garment for you. Remember you should wear the protective clothing **over** other clothing to ensure full protection. Therefore, the **Waist** measurement of the protective clothing should not be the measurement you normally use for selecting trousers. Add at least a couple of inches to your normal size to allow for any trousers worn underneath. Better still, measure your waist and chest etc., whilst wearing clothes and then add a bit for comfort. Finally, we strongly recommend you choose a size a shade on the large size to ensure comfort and maximum protection. We will of course offer a full refund or exchange if you select the wrong size. You only need to pay for return postage.

- **Height** – is the maximum height of the beekeeper. If the suit is too small for your height the hat brim will pulled down if you look up. Always go for a size a little on the large size if possible.
- **Gloves:** Gloves are sized by measuring across your four knuckles, not including the thumb, i.e. the width of the palm at its widest point. This distance in **centimeters** is your glove size. For example, if the distance measures 9cms then you need glove size 9.

All sizes are available in Gloves: 6/XXS, 7/XS, 8/S, 9/M, 10/L, 11/XL, 12/XXL.

Also avail the children size: 4/4XS, 5/3XS, 6/2XS.

**Beekeeping Gloves Size Chart in Inches
for example model # 5085.**

| Glove Size | Hand Width | Hand Length | Cuff | Total Length |
|-------------------|-------------------|--------------------|------------------|---------------------|
